BOSCHER'S GERMAN SYRUP can now be purchased right at home. It is the most successful preparation ever introduced to our people. It works like a charm in all cases of Consumption, Pneumonia, Hemorrhages, Asthma, severe Coughs, Croup, and all other Throat and Lung Diseases. No person has ever used this medicine without getting immediate relief, yet there are a great many poor, suffering, skeptical persons going about our streets with a suspicious cough, and the voice of consumption coming from their lungs, that will not try it. If you die it is your own fault, as you can go to your Druggist, JOHN FRANCIS, and get a sample bottle for 10 cents and try it; three doses will relieve any case. Regular size only 75 cts. 11

I am asked every day what will cure neuralgia, and I desire to answer through the newspaper to the Public that Bancroft's Discovery is the only remedy I know of. This truly wonderful Remedy is without doubt a specific for Neuralgia and Rheumatism. Sold by John Francis.

—Mr. Munger takes great delight in fine stock of all kinds, and especially in blooded horses. He has now on hand three as fine horses as can be found anywhere in the State. Two of them are heavy draft animals, and the third is a splendid roadster. Those interested should call and interview Mr. Munger. He certainly deserves great credit for bringing to the county so many and so fine animals as he has done.

—Fine weather for farmers.
—Plowing the order of the day.
—The prospect for fruit is good.
—Great loss of money to the farmers, for not having sheep to eat the grass that goes to waste on the prairie.
—Good prospect for a new school in No. 32, or a new district for Prairie Dell is a very small house, and there will be more pupils than it will hold when "Old Reliable" moves to his farm.
—Mr. John VanRiper started for Jennings County, Indiana, last Wednesday. Sorry to have him go.

TO PRINTERS.
Having recently added a new job press office, we offer for sale at a bargain our old jobber, size of platen, inside of chase, 10 x 12 inches.
INGERSOLL & PERKINS.

A VALUABLE DOCUMENT.

One of the grasshopper laws passed by the late legislature provided for a compilation by the Secretary of the State Board of Agriculture of the manner and means heretofore employed for the extermination of the grasshopper. Hon. Alfred Gray, the Secretary, has in compliance with this law, published, in a pamphlet of 20 pages, such information as is possible to secure. Those wishing a copy of this pamphlet, can secure one by addressing Hon. Alfred Gray, Topeka, Kansas.

RAILROAD MEETING.

The railroad meeting advertised for last Friday was well attended by our citizens, who went prepared to hear and determine for themselves the feasibility of the project. The speakers were attentively listened to and their remarks differently commented upon. After the speeches were over the following resolution was adopted:
Resolved, That we are in hearty sympathy with the efforts of the St. Louis, Ft. Scott, and Western R. R. Company to construct a railroad through our county and that when the said company sees fit to submit specific propositions the people of this part of Allen county will not be found wanting in their assistance to any honest and fair efforts to accomplish that purpose.

The above resolution expresses in few words the feeling of this community. In our opinion an east and west road through this county is only a question of time. The railroad company will be met half way—and no further.
We will be better prepared to speak further of this matter when a definite proposition is submitted.

GRANGE FESTIVAL.

A grange festival was held at Marston school house March 24th, 1877, on the occasion of four new members being admitted to full privileges in Hudson Grange. There was a full attendance of members, and several friends and visitors were present. After the usual ceremonies were over, an excellent supper was provided by the ladies of the grange. Everything displayed signs of good order and efficient management. A social meeting was held during the course of the evening, presided over by Mr. G. Meredith, of which the following is a programme:

TOASTS AND RECITATIONS.
Song, by the choir.
"Origin, design and past success of the Order of patrons of husbandry." Response by Dr. Strong.
"Influence of the Grange in elevating the position and brightening the prospects of the agricultural classes." Response by J. R. McNaught.
Song by the choir.
"The brethren of the Order, their duties to the Grange, to themselves, and to the brethren." Response by T. Gwilllem.
"Hudson Grange." Response by L. H. Gorrell.
Song by the choir.
"The grange likely to attract the attention of intending settlers, as they invariably prefer a peaceable and agreeable neighborhood." Response by J. Griffith.
"Artemus Ward's courtship." Recitation by G. Morgan.
"Katie's Letter." Song by A. Paske.
"Nothing to wear." Recitation by G. Morgan.

After a few pertinent remarks by the Chairman, and a closing song by the choir, the company dispersed, evidently well pleased with the evening's entertainment.

OUR CORNER, OSAGE TOWNSHIP.

We have been asked a great many times how we live away out here in the corner of the county, away from railroads, towns and markets. Well, we live about the same as all other people having the modern conveniences. We have ideas and tastes of our own, in union with our feelings and surroundings. Like the rest of the world, we try to abide by the "golden rule," when it doesn't interfere too much with our own interests. Our newspapers, we read, if we happen to have one; if not, perhaps our neighbor has a generous heart, and maybe will loan us one. We go to church when there is any, and sometimes, on Sunday, go to see our girl; and if we don't happen to have one, we go to see some other "feller's." Well, you know "a little nonsense now and then, is relished by the best of men."

Our farmers are pushing their spring work with great energy. About all have sown their oats that intend sowing at all. Some have "marked out" their ground for early planting.
Two of our enterprising neighbor boys—A. F. Charles and J. E. Stanley—have bought the old Bartlett ranch on the south fork of Deer Creek, twelve miles northeast of Iowa, and intend herding a large number of cattle for the different stock men in this locality.
The prospect for peaches is only tolerably flattering. It depends upon the location of the orchard. In some of the orchards, the fruit is about all killed. We are not affected with a very high political fever just now. It seemed to cool down about the 4th of March, and we can readily stand the pressure with our coat on now. Yours, truly,
DOR.
